

November 1<sup>st</sup> 2017

Big Picture Middle School is looking for mentors to enter into an apprentice with our 7<sup>th</sup> and 8<sup>th</sup> grade student body on Fridays for an hour. It could be from a handful of students to an individual student. Mentors would guide the students in their field of interest and help them grow throughout the year. Even if you are not able to make it every Friday there is still an option to make contact with individual students via email to help in the progression of their work.

We are also welcoming adults who are interested in sharing their work experience and personal passions.

We are trying to expose students to as many careers and opportunities as possible. If you are able and interested in volunteering it would be a great opportunity to work with the student close at hand and expose the students to explore outside of the school setting.

Areas in which the students are currently interested in looking for experience in is:

- Music (We have a student interested in learning to play the guitar)
- Engineering
- Computer Science

All is welcome to reach out for more details.

Thank you all for your work in the district and can't wait to hear your response.
